Aloha All!

Attached are the **Maui October 2008 Sales Statistics.**

Brief overview:

Pages 4 - October's Sales Volume – Unit sales in Residential showed an up tick compared to the previous 2 months. Meanwhile Condo and Land continue to lag behind earlier numbers this year, reflecting increased economic and financial concerns worldwide.

Page 5 - October's Median SALES prices for Residential homes declined to \$510,000, while Condo and Land rose from September's low numbers. This may be caused by more market focus in lower price ranges (Buyers only qualifying for a lower amount, Sellers now being willing to accept a lower sale price), compounded by fewer number of sales overall (page 4 above) to buffer or lift those lower median sales price numbers.

Page 6 - Days on Market for Residential homes = 156 DOM, Condos = 199 DOM and Land = 93 DOM. (Note: this is the average DOM for the properties that SOLD. If predominantly OLD inventory sells, it can move this indicator upward, and vice versa. Also, RAM's Days on Market are calculated from List Date to Closing Date [not contract date]. As such, it includes approximately 60 days of escrow time.)

Pages 10 - 14 - "Year to Date Sales" numbers for Residential sales declined in number of sales, average / median prices and for total dollar volume sold. Condos and Land sold fewer units year-to-date however showed increases in average/median prices. Short time-frame (monthly) views do not necessarily reflect the longer time-frame trends.

Better overview is available from these pages at the end of each year such as 2007's Year End (Dec. 2007) available at:

http://www.mauiboard.com/download_files/file_1199408630.pdf

Also, total sales for immediately past 12 months: Residential=955, Condo=879, Land=132.

IN A NUT SHELL..... the good, the bad..... AND THE UNCERTANTY

Considering the financial news of the last 60 days, the pending election outcome and everything else, we are in a state of uncertainty. As one Broker says, "A confused mind says 'NO!'" Not at all conducive

to real estate investment. However, if you can purchase a home, it is a great time to buy and HOLD. Prices have declined; "Able" Buyers are scouting out good deals.

Active inventory has grown considerably in the last twelve months and mostly leveled off. While Unit Sales are lagging, Days on Market figures show that properties priced right will sell in a reasonable timeframe. "Priced Right" is still the determining factor. Hopefully the \$700 Billion Bail Out will help more people purchase a home or retain their current home.

FOR BUYERS: Continued low interest rates provide plenty of options for Buyers. Buyers should get Pre-Approved so they can shop in confidence (no last minute disappointments due to non-funding loans). More "short-sales" and foreclosures are happening in the marketplace, however can be less of a bargain than they seem, requiring more hurdles to leap and more time to close. Be prepared.

FOR SELLERS: To be successful, Sellers need to be realistic and can beat competing properties with better property condition, careful pricing, good marketing, and flexible terms. Pro-Active Sellers are getting their properties **appraised, inspected and surveyed** in advance to encourage knowledgeable offers from realistic Buyers. Doing this can prevent unanticipated escrow fallout. We may see more Agreements of Sale offered in the future.

Unrealistic Sellers continue to follow the market down and miss current opportunities that later become woefully apparent. Sellers who don't really need to sell (just "fishing?") should stay off the market, and clear the marketplace for those who REALLY want/need to sell. Meanwhile, Buyers waiting for the "bottom" may also miss unique properties/opportunities as market forces, qualification requirements and rates may fluctuate. (There is no bell that rings when the market hits bottom.)

Zooming in on the figures of a specific geographic area or property type may lead to different conclusions that the overall view. (Choose carefully ;-)

Disclaimer:

As always, I will remind everyone that Maui's market place is much smaller than Oahu's, and that a few high or low sales have a greater effect on the statistical numbers without necessarily indicating a big market swing one way or another.

If you have any questions regarding hard numbers, call my number below.
